DETAILED ACTION

Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: with respect to claims 1 and 2, in addition to other limitations in the claims, the prior art of record fails to teach, disclose, or render obvious the applicant's invention as claimed, particularly the feature describing one or more reconfigurable interconnection circuits which connect(s) the output lines of said memory for logic of the preceding stage or the external input lines with the input lines of said memory for logic of the succeeding stage according to the output of said memory for interconnection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
4. Kajigaya (2008/0100337) discloses look up tables cascading together in pipeline and having interconnecting circuit in between stage, but no reconfigurable interconnection circuits which connect(s) the output lines of said memory for logic of the preceding stage or the external input lines with the input lines of said memory for logic of the succeeding stage according to the output of said memory for interconnection.
